Next ECR and Student Board activities

- e-talks with senior scientists and young PI from academia and companies:
 - We engaged up to 10 possible speakers so far. We are targeting a number of 20 speakers.
 - No budget is required;
 - Focus on their scientific field of interest/career development/scientific-related social aspect (e.g., ethics, gender gap, etc. ...);
- e-talk with young scientific divulgators from EU countries, including content creators on social networks
 - Really preliminary phase (listing the possible persons to contact)
 - Budget might be required. Usually, creators produce specific video via sponsorship;
 - Lay discussion on general scientific topics in the gene therapy field (e.g., Gene Therapy, Rare Disease, Gene editing, CAR-T, etc....);
 - Why:
 - Boost public debate on Gene Therapy world;
 - Increase social coverage on social network not specifically used among the scientific community (FB, IG ...);
